

Ken: What kind of social media do you like to use?

Jun: Well, I mainly use Instagram. When I scroll through my IG feed, I'm always inspired by the images people take.

Ken: Right, Instagram is really ubiquitous these days. I can spend hours surfing Instagram. So... are you a social person?

Jun: Yeah, I'm quite open to meeting new people.

Actually, I don't shun crowds and conversation.

But I don't think being antisocial is bad per se.

Some people come off as cold, but once you get to know them, they can be surprisingly friendly and cool.

Ken: Do you think it is easy to find real friends on social media?

Jun: I would say no. It may be easy to find people with common interests but we need to have physical interaction with a person over a period of time. After all, friendship is built on trust.

What do you think about social media?

Ken: Well, you know, social media takes time, but it saves time too. But it is kind of easy to get the balance wrong.

All you need is to draw the line for it.

1. What kind of social media do you like to use?
2. How much time do you spend on social media daily?
3. Do you know any of viral video or your favorite one?
